It gives me great pleasure to write this letter in support of Bikur Cholim of Greater Washington. I, along with many of my congregants, have benefited greatly from the many chesodim provided by this organization and its dedicated staff. A hospitalization can be a very lonely and frightening experience. Bikur Cholim provides reassurance to patients and family alike that they are not forgotten during a hospital stay and can remain connected to their Jewishness through kosher food, Shabbas licht, Shabbos meals, kosher pantries, siddurim, halacha seforim, bedside visits, and . of course, the hospitality of the Bikur Cholim house.

As we approach the shloshim of the terrible events of this past Shmini Atzeres, it is especially important that we give generously to this organization and to Soroka Medical Center, a hospital in the Negev serving Israel's sick and wounded. In the merit of our tzedeka, tefilla, teshuva, and Torah, Hashem's countenance should shine upon acheinu beis Yisroel and bring an end to their suffering and that of all klal Yisroel.

With Love and Respect,

Yosef Singer
Rav
