Lesli and Jordon,

You both are the paradigm of what it means to be a true friend of an organization. Your continued involvement with Keshet for almost two decades is to be commended. As Chai Society members, your contributions over the years have significantly impacted our scholarship program and made a Keshet education a reality for many students. Lesli, as a dedicated board member and board chair, our school flourished under your leadership. While no words can truly express our gratitude, on behalf of the children, we thank you for the countless hours you have given them by volunteering in the classroom each week. You are a treasure.

On behalf of the Keshet Board of Directors, Administration, students and their families, we send warm congratulations on this most deserved recognition.

Yasher Koach to you both!

*Your Keshet Family*
