Dear Schechter School of Long Island, and Community,

It is our pleasure to have had your lives linked to our organization for the last four years! You have grown as a school community, contributed to our professional development, lent your experience and expertise to our own knowledge base, and translated everything you offer to an outstanding community of students and leaders. We commend you on growing your community of students, and your success in education and inspiration to others.

We have come to know SSLI through our rigorous processes, and have watched it develop in the areas of technology, leadership, and growth in its own community.

NYS AIS recognizes continued growth, and encourages the highest standards in our relationships with our schools. Also recognized, are those who honor SSLI as they continue to nurture students throughout their lives, especially:

Janet & Albert Hakim
Ida & Eric Kalimian
Phyllis Simon & Meyer Steinberg.

As SSLI empowers students to be critical thinkers, ethical leaders and globally engaged citizens, so NYS AIS encourages schools to strive to reach their potential. SSLI takes its mission to heart, and has proven itself through achievement of Full NYS AIS Accreditation.

Congratulations on your growing life, SSLI administrators, teachers, leaders, students and community! NYS AIS looks forward to a long future of assisting you through our continued relationship!

Best regards,

Mark Lauria and the NYS AIS Staff
